EAN:

FEATUES

The Edis CS18 300W 8Ω Speaker is 300 Watt speaker for use with conference amplifiers, creating a high-end professional sound system with outstanding vocal reproduction needed for meetings. Ideal for theatres, high-end conference rooms, multi-function halls and similar locations. Drivers include a mid-woofer unit and a circular diaphragm compressed tweeter unit. House in a 15mm plywood housing, light weight, wear-resistant dust proof paint finish. Drivers include a mid-woofer unit and a circular diaphragm compressed tweeter unit. House in a 15mm plywood housing, light weight, wear-resistant dust proof paint finish. The frequency divider design is used to optimize the vocal MF performance between woofer and tweeter speakers. Bracket mounting with multiple screw or pole socket with a diameter of 35mm to suit a variety of installations and locations.

SPECIFICATION

Impedance	8Ω
Frequency response	55Hz~20KHz
Rated power	300W
Peak Power	1200W
Sensitivity	98dB/W/M
Max SPL(rated/peak)	123dB/129dB
Coverage angle	(H)80° (V)60°
Tweeter	1.4" compressed tweeter ×1
Woofer	10" woofer ×1
Size	510×325×300mm
Weight	15.2Kg
