

# Digital flute instrument

SKU:

EAN:

## FEATURES

- Explore musical freedom with our electronic wind instrument - 10 pitches, sax and flute fingerings, adjustable breath sensitivity, transpose and vibrato settings. Features a removable silicone mouthpiece, Bluetooth MIDI and audio connectivity.
- Enjoy the built-in speaker or connect external devices. Powered by an 800mAh lithium battery or USB 5V (adapter included). Expressive and dynamic, this electronic wind instrument features 10 pitches and adjustable breath sensitivity, allowing musicians to express emotion and nuance in their performance.
- Fingering versatility, seamless transitions between sax and flute fingerings cater to a variety of playing styles, enhancing the instrument's adaptability. Personalization controls, transpose and vibrato settings (1-99) enable musicians to customize their sound, providing a unique and personal musical expression.
