

EM40 88 Key Music Keyboard

SKU:

EAN:

FEATUES

● Piano timbre

The sound source tone of the sampled grand piano can be comparable to that of the original steel. By using stereo microphone sampling technology, the original sound of the grand piano has been fully recorded, creating a rich, fuller, and wider range of sound. The rounded and fuller tone is more suitable for professional performance and registration exam training

● Agile design

Fashionable art design, elegant black lightweight piano body with ultra-high aesthetic value, precise mechanical design interpreting elegant posture, the choice of musicians in the new era

● 88 key standard piano keys, each key independently triggers with precision and sensitivity, truly comparable to the feel of a piano. Dual high fidelity stereo speakers, surround sound effect, pleasant sound quality
