

# Flat Packed Laptop Charger Carts

SKU: 0010129-36-15FP

## FEATUES

The Edis Flat Packed Laptop Charger Carts 24 to 36 bay flatpack laptop charger carts for up to 16" laptops or tablet UK/US/EU type socket strips, anti-surge power management and cooling fans. Choice of colours in Blue, Black and Gret or a mix of these. In addition. **DEVICE SECURITY:** The battery-powered digital keypad lock is programmed with a passcode of your choice, and activates the automatic flush bolt locks. There are also padlock loops fitted to add a combination lock or padlock on the front of the cart, and a loop underneath to secure your cart with a chain (traditional lock/chain not included). **SAFETY DESIGN:** The cart has rounded corners on top to help prevent injuries in busy spaces, and it's sturdy design means it can support up to 400 lbs. Ventilated walls keep your devices from overheating while they charge. There is a safety circuit breaker for whole power strip system. Ground fault protection is built into the front and back of the cart for user safety! **CABLE MANAGEMENT:** Removable power cord baskets provide organization in the back, and you can charge your devices using either the top cord hooks in the front, or the zig-zag slots in the dividers. Our plastic dividers prevent the screens from getting scratched, and the extra-wide device slots will fit tablets or laptops with protective cases on. **USER FRIENDLY:** This cart is designed for flatpack to save shipping cost! Our built-in plastic handlebar provides ergonomic maneuverability and prevents static shocks. In addition, this cart's front door opens a full 270 degrees. In addition, the 4 rounded corners provide style and safety to the environment. Suitable for schools, dormitories, libraries, corporate offices, etc.
