

Large bluetooth dual headset with mic

SKU:

FEATUES

The Edis Large bluetooth dual headset with mic is New bluetooth 5.0 upgrade. Bluetooth 5.0 chip circuit optimization for better connectivity, not easy to break communication link, interference, data transmission extremely clear. Low power consumption with longer endurance. Turbine power. Large earpiece speaker unit with a diameter of 57mm and built-in customized power amplifier to provide clear and impressive sound quality. The cavity controlled optimization technology is optimized for different frequency bands to make the sound quality dynamic and powerful. Endurance power. This Edis headset gives you the endurance you deserve: about 40 hours of listening, 45 hours of talking, and 1600 hours of standby. Line-in Indicates wire input. Once the batteries are discharged you can still use the headset using the 3.5mm audio cable input for listening. You only need one cable to plug in and listen to music without a power cable. Not all Bluetooth headsets have 57mm large moving coil drive units, we've spent two years to independently develop 57mm large horn drive unit, with high sensitivity and extremely low distortion. The sound quality is really amazing!

BLUETOOTH HEADSET

Fuctions	Bluetooth AUX AWS
BT Version	V5.0
Colour	Black & White

PACKING DETAIL

Pcs/ctn	10 pcs
Carton size	46.9*42.7*24.1cm
Gross Weight	5.34KG

WORKING TIME

Talking /Music playing time	about 46hours
Standby time	about 1625hours
Fully-charged	about 2 hours

ACCESSOTIES

User manual	1pc
Mirco USB Charging Cable	1pc
3.5mm gilded audio cable	1pc

SPECIFICATE

Supported profiles	A2DP AVRCP HSP HFP
Operating range	up to 10m (Accesible space)
Frequecy range	2.4GHz-2.48GHz
Frequecy response	20Hz-20kHz

Drivers	57mm drivers *2
Working environment	- 10°C -50°C
Battery	650MAH polymer battery
Sound pressure level	116dB
