

Microphone tripod stand

SKU:

EAN:

FEATUES

- Floor standing microphone stand, freely adjustable height and angle, thickened and bold, slash design, sturdy and stable
 - The standard configuration includes a rubber elastic microphone clip, which is quick to assemble and disassemble, easy to fix and will not move, saving effort and worry. The angle and height can be adjusted at will, the length of the diagonal rod can be controlled, and it can be pushed and pulled freely, with stable suspension.
 - Stable triangular base
- The base of the bracket adopts a triangular structure, with strong load-bearing capacity and three-legged support for stability and balance. Made of high-quality metal material, it is hard and resistant to deformation, and the black paint can easily meet various daily uses
