

Mobile LED Photo Studio Lighting Set Model 3

SKU:

EAN:

FEATURES

● 24W daylight bulb with a color temperature of 5700K, which produces balanced pure white daylight and continuous uniform light, providing a good photography environment. White reflective umbrella with high-quality nylon structure, which can evenly reflect and diffuse light. Black, white and green background cloth + clip. There is a hanging rod bag on each top edge for easy hanging or hanging.

● Reflector

This product is a reflector with five different reflective surfaces and a reversible cover. 5 color interfaces are free to choose: silver, translucent, gold, white and black

● Suitable for multi-scene use It can adapt to different shooting needs, provide suitable light from multiple angles, and can be easily set up in a few minutes. It is an ideal choice for portrait, studio, photography, video and other shooting. Both the background support bracket and the continuous lighting kit include a carrying bag for easy travel.
