

Portable stringless electric guitar

SKU:

EAN:

FEATUES

- It combines a powerful chord synthesizer, interactive music scores, automatic drum machines and supports nearly a hundred accompaniment styles, allowing you to play a rich and three-dimensional singing and playing effect like a band in the most free and casual way.
- It supports nearly a hundred rhythm patterns. You don't need to change the fingering. Just tap the APP to achieve rhythm pattern changes in various styles, such as broken chords, block chords, strumming, hammering, muting, hitting, etc.
- It uses a variety of audio units with different characteristics to produce sound in coordination, and is precisely tuned according to the unique frequency characteristics of the instrument, achieving excellent performance sound quality with the smallest volume. It has two built-in high-discharge rate lithium polymer batteries, and the battery life is 6 hours using the built-in speaker and up to 12+ hours with an external speaker.

SPECIFICATION

| | |
|-----------------------------|--|
| Weight | 1788g |
| Folded size | 416x164x81mm(length x width x thickness) |
| Expanded size | 808x264x81mm(length x width x thickness) |
| Shell body | ABS+PC spray-free composite material |
| Metal accessories | Anodized sandblasted aluminum alloy |
| Work Environment | 0-40°C |
| Using the built-in speakers | About 6 hours |
| Using external devices | About 12 hours |
| Automatic shutdown time | 10 minutes |
| Charge | MAX DC 5V 3A USB Type-C |
| Charging time | About 2 hours |
| Battery capacity | 3.7V2000 mAhx2 Li-Polymer Battery |
| Audio output interface | 3.5mm audio jack |
| Speaker Specifications 5W | High frequency speaker x1 |
| Speaker Specifications 20W | Subwoofer x1 |
