

RGB 10" Ring Light 10W with Wired control & Desktop Stand

SKU:

EAN:

FEATUES

- Professional-grade soft lighting creates an immersive visual experience. The 10-inch large-diameter RGB ring light evenly diffuses light, eliminating facial shadows and making it suitable for live streaming, online classes, video conferencing, and other scenarios, presenting a natural and translucent skin tone
 - Provides ample lighting while maintaining low energy consumption, does not overheat during prolonged use, and balances efficiency and environmental friendliness
 - RGB color versatility
- Easily create various lighting effects for different shooting scenarios to suit your needs.
- Wired control ensures precise and convenient operation. The stand supports tilt, 360-degree rotation, and height adjustment to adapt to different devices or sitting postures, providing flexible layout options for teaching, creative, and other scenarios
