## **Sports Action Cameras**

SKU: 0200161 EAN:5060848901063

## **FEATUES**

The Edis Sports Action Cameras 4K double color screen Super clear picture quality, 24 megapixels, 170° wideangle shooting, 40 meters waterproofing depth, WiFi, IPS full-view screen, EIS anti-shake, time-lapse shooting and other functions, you can enjoy the experience.24 million HD pixels High-definition optical lens, F2.0 large light map, for really beautiful views. The front facing color screen makes composition much more accurate and takes away the guess work in selfies. From now on, say goodbye to blind shooting and always take the very best selfies.Advanced H.264 video coding capability has high compatibility, half the bandwidth needs and half the storage capacity needed, improving image quality and other advantages.Smart image stabilization Picture details are stable and smooth during camera movement, without blurring of the recorded video. The 170° wide Angle lens has no distortion, and an enlarged field of vision, clear imaging and maintains the picture textures.40 metre Deep water capability.The exclusively designed waterproof and durable shell case supports 40m underwater shooting. The battery capacity is 1,050 mah for long term shooting. The WiFi function enables remote control of the camera from a mobile phone through the camera app.

## SUPPORT FUNCTION

Take a picture in

short time

Electronic image	Supported (120fps and 240fps resolution
Electronic intage	Supported (1201p3 and 2401p3 resolution
stabilization (EIS)	not supported)
Time lapse	support
recording	
Take a picture in	support
short time	
Slow motion video	support
Quick action video	support
Loop video	Support 1 minute, 3 minutes, 5 minutes
	cycle video
Photo mode	Single shot, time shot, serial shot

support
