

# USB wired electron microscope lifting stand

SKU:

EAN:

## FEATUES

- USB connection, supports laptops, easy to carry. Ruler base, black background and white text for easy identification of chassis, gears for adjusting length.
- Adjustable magnification, focus wheel. Built-in 8 bright white LED soft fill lights: adjustable brightness, uniform light, soft and non-glaring, easy to cope with various scenes.
- It can be used in many scenarios, easy to carry, suitable for jewelry testing, circuit board testing, teaching science testing, etc.

## SPECIFICATION

Video maximum pixel	640*480
Image sensor	1/6.5" color CMOS image sensor
Photo resolution	640*480, 1280*720, 1920*1080
Video resolution	640*480
Date format	JPEG/AVI
Focus mode	manual
Photo format	JPG/BMP
Illuminant	8 LED lights(brightness adjustable)
Focusing range	0~40mm
PC resolution and image transmission rate	640*480/26FPS, 1280*720/26FPS
Sensitivity	2.5V/lux.s
Maximum SNR(Signal Noise Ratio)	42dB
White balance	auto
Exposure	auto
PC operating system	Win10, Win8, Win7, MAC
Lens constuction	2G+IR
Aperture	F4.5
Lens angle	16°
Interface and signal transmission mode	Micro/Type-c/usb2.0
Operating temperature	-20℃~75℃
Operating humidity	30%~90%RH
Operating current	maximum 120mA
