FEATUES

● Panoramic Surround Recording

One-touch recording/saving | Zoom DSP Dynamic Noise Reduction | 1536kbps Lossless Recording | High-Strength Magnetic Cavity Speaker | Hi-Fi Lossless Music Playback | E-book Reading | Intelligent Voice-Activated Recording | Scheduled Recording | Segmented File Saving | Voice-to-Text Transcription | Intelligent Timestamps | Password Protection for Recordings

● One-Touch Recording, Zoom DSP Dynamic Noise Reduction

Simply slide to start recording; press a single button to save. Features AGC (Automatic Gain Control) and DSP Dynamic Noise Reduction technology to eliminate noise at the source.

● Newly Upgraded 360° High-Sensitivity Directional Microphone

Captures sound from a full 360-degree radius. E-book Reading: Download and read a vast library of novels in TXT and LRC formats; supports automatic page-turning and background music playback while reading.

● 1536kbps Bitrate

Delivers high-definition, lossless audio quality with a bitrate reaching up to 1536kbps, enhanced by acoustic DSP noise reduction.

● Scheduled Recording & Intelligent Segmented Saving

Schedule recordings to start once or daily at a specific time. To prevent individual files from becoming too large during long sessions, you can configure the device to automatically save recordings in segments. Even without a computer, you can use an OTG adapter to connect directly to a mobile phone and access the audio files stored on the voice recorder.

SPECIFICATION

Color	black
Weight	50g
Size	10.7*2.2*1.35 cm
Battery capacity	350mah
Recording time	About 70 hours
Charging time	2 hours
Play time	The default volume is around 32 hours
Internal memory	High speed BGA
Loudspeaker	There are
Display screen	0.96 inch
Recording format	Wav
Playback format	Playback format
